

# Off-Grid Solar Power SOLAR HOME SYSTEM SCPV-HOME15-25

## Integrated Solar System

Perfect use for remote area application, it can be used for LED lamp, fan, radio, mobile, TV, iPad and so on. **System can be purchased outright or on easy terms of up to 100 weeks**

- Fully integrated DC Solar System including battery, charge controller and switches in a single power box.
- The power box uses flame retardant materials, impact resistance and vibration resistance.
- High efficiency LED lamps produce up to 850 lumens light which is equivalent to 100W light bulb
- Long life lithium batteries give years of maintenance free service.

Specifications	SCPV-DC15	SCPV-DC25
<b>Solar Panel</b>		
Peak Power	15W Solar Panel	25W Solar Panel
Seal	Encapsulated with tempered glass	
Service Life	25 years	
Cables on back	5 meters	
<b>Battery</b>		
Type	LiFePO4 Lithium-ion batteries	
Voltage Capacity	12.8V/3.3AH – 42Wh	12.8V/6.6AH – 84Wh
Service Life	5 – 8 Years, 2 years warranty	
<b>Light Source</b>		
Type	LED- NICHIA High Efficiency (170 Lumens per Watt)	
Power	3 - 5W / PC 500-850 Lumens adjustable	
Quantity	2 PCS	4 PCS
Service Life	50,000hrs	
<b>USB Charger</b>		
USB Power Out Put Sockets	2 PCS USB Charging Sockets 1A Each	
Usage	For Charging Mobile Phones or Cameras	
<b>Power Box</b>		
Power Box	Wall mounted, suggested install height: 1.3 – 1.5M	
<b>Package</b>		
Package	20'ft container: 480 sets	
	40'ft container: 1056 sets
